Here is a list of works published by various authors, that may be of interest to common law truth seekers. It needs to be noted that some authors may have been working for the Cabal -- or whatever term you prefer. The concept of governments using corporations goes back to the 16th century[1]. Later governments became corporations. Persons became corporations.

The battle of truth versus deception has a very long history. The removal of your rights did not start yesterday, and won't be restored tomorrow. Expect traitors, disinformation, etc. That includes books. Please read up on the authors and use your own discretion.
